### **Non-GAAP Financial Measure**

In addition to presenting financial results in accordance with generally accepted accounting principles, or GAAP, this earnings release also presents adjusted earnings before interest, taxes, depreciation and amortization, share based payments, deemed and contractual dividends, and expenses that management believes will not re-occur in future periods including certain investor relations and subcontractor expenses ("Adjusted EBITDA"). Adjusted EBITDA is calculated by

deducting operating and other expenses from operating income and excluding amounts related to interest expense, income tax expense or benefit, depreciation expense, amortization expense, non-cash share based payments, deemed and contractual dividends, certain investor relations expenses, certain subcontractor expenses and any gain or loss on disposal of assets. Although we will continue to expend significant resources on investor relations in the future, management believes that certain investor relations expenses incurred in the current fiscal year are unusually high as we build investor awareness, and that a portion of these expenses will not re-occur in future years. Certain subcontractor expenses are impacting our current fiscal year as we open markets through Beacon certified subcontractors who will be replaced by Beacon personnel over the coming months as Beacon serves markets of sufficient size to support internal operations. Beacon believes this non-GAAP financial measure provides investors with additional insight into our ongoing operating performance. This non-GAAP financial measure should be considered in conjunction with, but not as a substitute for, the financial information presented in accordance with GAAP.
