Item 1.01 Entry into a Material Definitive Agreement

On November 6, 2009, Beacon Solutions AG, a wholly owned subsidiary of Beacon Enterprise Solutions Group, Inc. (collectively, “Beacon”) entered into a project management services agreement with Interxion, one of Europe’s leading providers of premium carrier-neutral data centers and managed services, for the design and construction of a data center in Zurich. The value of the contract is approximately \$24.8 million, with completion of the entire project expected during the Company’s fourth fiscal quarter ended September 30, 2010.

The project involves the planning, design, construction management, design compliance and commissioning of the data center, including climatization, power and telecommunications. Phase 1, which has already commenced, covers the first 2,500 square feet of the facility, and is expected to be completed no later than March 31, 2010. Phase two of the agreement, which is expected to be completed by July 1, 2010, involves the completion of the remainder of the data center, which is approximately 4,000 — 5,000 square feet.

Item 3.02 Unregistered Sales of Equity Securities.

As described in the Current Report on Form 8-K filed on September 28, 2009, which is incorporated by reference herein, Beacon Enterprise Solutions Group, Inc. (“the Company”) has engaged a registered broker-dealer (the “Placement Agent”) in a private placement of up to 3,750,000 units (the “Common Units”), for an aggregate purchase price of \$3,000,000, with each Common Unit comprised of (i) one share of Common Stock, and (ii) a five year warrant to purchase one-half share of Common Stock (each, an “Investor Warrant”) at a purchase price of \$1.00 per share (collectively the “Common Offering”). In the event that the Common Offering is oversubscribed, the Company may sell and issue up to an additional 1,250,000 Common Units.

On November 6, 2009, the Company sold and issued an aggregate of 281,250 Common Units for an aggregate purchase price of \$225,000. The Company has used the proceeds of the Common Offering to provide working capital. The Placement Agents have earned cash commissions of \$16,250 in connection with these placements and warrants to purchase 24,375 shares of Common Stock.

The Investor Warrants each have a five year exercise period and an exercise price of \$1.00 per share of Common Stock, payable in cash on the exercise date or cashless conversion if a registration statement or current prospectus covering the resale of the shares underlying the Investor Warrants is not effective or available at any time more than six months after the date of issuance of the Investor Warrants. The exercise price is subject to adjustment upon certain occurrences specified in the Investor Warrants. The Company has used the proceeds of the Common Offering to provide working capital.

The Company is relying on an exemption from registration provided under Section 4(2) of the Securities Act for the issuance of the Investor Warrants and shares of its Common Stock, which exemption the Company believes is available because the securities were not offered pursuant to a general solicitation and the status of the purchasers of the shares as “accredited investors” as defined in Regulation D under the Securities Act. This report is neither an offer to purchase, nor a solicitation of an offer to sell, securities. The securities offered have not been registered under the Securities Act and may not be offered in the United States absent registration or an applicable exemption from registration requirements.

THE INFORMATION CONTAINED IN THIS REPORT IS NEITHER AN OFFER TO PURCHASE, NOR A SOLICITATION OF AN OFFER TO SELL, SECURITIES. THE SECURITIES OFFERED HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT AND MAY NOT BE OFFERED IN THE UNITED STATES ABSENT REGISTRATION OR AN APPLICABLE EXEMPTION FROM REGISTRATION REQUIREMENTS.

Item 9.01 Financial Statements and Exhibits

Exhibit 99.1 Press Release 11-11-2009

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report on Form 8-K to be signed on its behalf by the undersigned hereunto duly authorized.

**BEACON SIGNS \$24.8 MILLION AGREEMENT WITH PAN-EUROPEAN MARKET LEADER**

— Full Contract Revenue Recognition Projected in Fiscal 2010 —

— Expands Presence in Europe with Carrier Neutral Data Center Project —

LOUISVILLE, KY, November 11, 2009 — Beacon Enterprise Solutions Group, Inc. (OTC BB: BEAC) (www.askbeacon.com), an emerging global leader in the design, implementation and management of high performance Information Transport Systems (“ITS”) infrastructure solutions, has signed a project management services agreement with one of Europe’s leading providers of premium carrier-neutral data centers and managed services, for the design and construction of a data center in Zurich. The value of the contract is approximately \$24.8 million, with completion of the entire project expected during the Company’s fourth fiscal quarter ended September 30, 2010.

The two phase project involves the planning, design, construction management and commissioning of the data center, including climatization, power and telecommunications. Phase 1, which has already commenced, is expected to be completed no later than March 31, 2010. Phase 2 of the agreement involves the completion of the full data center and is expected to be finished by September 30, 2010.

“We are pleased that this client selected Beacon Enterprise Solutions to be the construction manager and provide the design, integration and implementation of their communications needs for their new carrier-neutral datacenter,” said Bruce Widener, CEO of Beacon Enterprise Solutions. “At \$24.8 million, this contract represents a significant engagement, and sets the pace for expected record growth in 2010.”

Mr. Widener continued, “Earlier this month we expanded our relationship with a Fortune 100 pharmaceutical client to provide them infrastructure, design and support in the EMEA region. With work for this client already underway, we are becoming more well-known for our international expertise, as evidenced by this new agreement.”

As a provider of carrier-neutral data centers, this client owns and operates 50,000 square meters of colocation space within 25 data centers in 11 countries across Europe. It delivers a full set of services that allow more than 1,100 companies to securely house, connect, monitor and maintain mission-critical IT equipment. Its comprehensive portfolio of data center services allows its customers to optimize the availability, scalability and flexibility of their IT infrastructure while minimizing capital expenditure.

- more -

Carrier-neutral colocation is becoming an increasingly popular trend in Europe, where, according to a recent study, the growth in demand for outsourced data centers is expected to result in an estimated CAGR (Compound Annual Growth Rate) of 23% in the sector's major European markets. Increases in demand for high-bandwidth consumer and business applications are contributing to this trend, as is the cost-benefit of outsourcing to a carrier-neutral data center.

Rick Mills, President of Beacon Enterprise Solutions commented, "This engagement marks the second major international assignment that we announced within a three-week period. We were selected based upon our company's expertise and our ability to plan and execute mission-critical technology system projects according to the highest level of industry standards. We look forward to working with the client to create this new data center that will dramatically increase the bandwidth available in the Zurich region."

About Beacon Enterprise Solutions Group, Inc.

Beacon Enterprise Solutions Group is an emerging global leader in the design, implementation and management of high performance Layer 1 network solutions. Beacon offers fully integrated, turnkey IT infrastructure solutions capable of fully servicing the largest companies in the world as they increasingly outsource to reduce costs while optimizing critical IT design and infrastructure management. Through an integrated team approach, Beacon offers a broad range of products and services including IT infrastructure design, implementation and management, application development and voice/data/security system integration, installation and maintenance. Beacon's client roster includes state and local agencies, educational institutions, and over 4,000 companies ranging in size from mid-sized companies to the Fortune 500. Beacon is headquartered in Louisville, Ky., with regional headquarters in Dublin, Ireland and Zurich, Switzerland and personnel located throughout the United States and Europe.
