INFORMATION STATEMENT

This information statement is being furnished by Suncrest Global Energy Corp., a Nevada corporation, to the holders of our common stock. On October 20, 2006, our board of directors proposed by resolution a 13-to-1 reverse split of our common stock (the "Reverse Split"). On October 23, 2006 (the "Record Date") stockholders holding 27,241,000 shares of common stock, representing 69.8% of our outstanding common stock, executed and delivered a written consent approving and adopting the Reverse Split. As a result, the Reverse Split was approved by a majority of the issued and outstanding shares of common stock in lieu of a special meeting of stockholders and no further votes will be needed.

This information statement is being mailed on or about November 21, 2006 to all stockholders of record at the close of business on the Record Date. This information statement is being provided pursuant to the requirements of Rule 14c-2 promulgated under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The purpose of this information statement is to inform holders of our common stock entitled to vote or give an authorization or consent in regard to the action authorized by the written consent that the corporate action has been approved. Pursuant to Rule 14c-2 under the Exchange Act, the proposal will not be effective until on or about December 11, twenty days after the date this information statement is mailed to the stockholders. Therefore, this information statement is being sent to you for informational purposes only.

You should carefully read the entire information statement to more fully understand these matters affecting the company. If you have any questions regarding this information statement please contact:

INTRODUCTION

Nevada law provides that any action required or permitted to be taken at a meeting of stockholders may be taken without a meeting, if before or after the action, a written consent is signed by stockholders holding at least a majority of the voting power. Our board of directors (the "Board") proposed by resolution the Reverse Split and the resolution was approved by a majority of our outstanding common stock entitled to vote on the matter; including, our former parent corporation, VIP Worldnet, Inc., and our management. Therefore, no vote of any other stockholder is necessary and stockholder votes are not being solicited. On or about December 11, 2006, twenty calendar days after the mailing date of this information statement, our executive officers will complete any necessary procedures to effect the Reverse Split.

REVERSE SPLIT OF OUTSTANDING SHARES

On the Record Date we had 39,050,000 shares of outstanding common stock and the Reverse Split will reduce that number to approximately 3,038,462 outstanding shares. When the Reverse Split is effected, each stockholder who holds fractional shares of 0.5 or more will be issued one share. Also, after the Reverse Split is completed the number of shares outstanding may increase depending on the amount of shares issued for fractional shares. In addition, we will be required to request a new trading symbol for our common stock listed on the OTC Bulletin Board.

Since we sold our mini oil refinery in August 2006, our business plan moving forward is to seek, investigate, and, if warranted, acquire an interest in a business opportunity. Based on current economic and regulatory conditions, management believes that it is possible, if not probable, for a company like ours, without many assets or liabilities, to negotiate a merger or acquisition with a viable private company. The purpose of the Reverse Split is to reduce the amount of outstanding shares of common stock in order to position the company so that it is more attractive as a merger or acquisition candidate. As of the date of this filing, we have not identified any assets or business opportunities for acquisition or merger.

The Reverse Split results in each current stockholder retaining the same proportionate interest in Suncrest Global as he/she/it held prior to the Reverse Split. However, we will have additional authorized common shares to issue in the future. When and if these shares are issued, each stockholder's proportionate interest and voting power will be reduced accordingly. In the context of an acquisition or merger, we may issue an amount of shares to convey a majority interest to other parties, which may reduce the proportionate voting power of our current stockholders significantly.
