Beacon Enterprise Solutions Reports Fiscal 2010 Financial Results

— Net Sales Increase 39% for The Year —
— Gross Profit Margins Increase 144 Basis Points to 42% For the Year —
— Conference Call To Be Held Today at 10:00 A.M. Eastern Time —

LOUISVILLE, KY, December 17, 2010 — Beacon Enterprise Solutions Group, Inc. (OTC BB: BEAC) (www.askbeacon.com) an emerging global leader in the design, implementation and management of high performance Information Technology Systems (ITS), reports financial results for the fourth fiscal quarter and year ended September 30, 2010. Fourth quarter and full year results reflect the impact of the discontinued operations of the Company's Swiss based subsidiary.

Financial Highlights for the Fiscal 2010 Full Year:

- · Net sales from continuing operations increased 39% to \$14.0 million compared with \$10.1 million in fiscal 2009;
- Net sales from discontinued operations totaled an additional \$17 million in fiscal 2010 and an additional \$1 million in fiscal 2009;
- · Gross profit for fiscal 2010 was \$5.9 million, more than double the \$2.8 million reported last year;
- North American gross profit margin was 37% compared with 28% in the fiscal 2009;
- · Blended North American and European gross profit margins were 42%;
- Adjusted EBITDA for the year was negative \$2.1 million compared to negative \$3.4 million in 2009; and
- Loss from continuing operations for the year was \$10.4 million, which included a \$4.4 million non-cash charge, compared with a loss from continuing operations of \$6.8 million in fiscal 2009.

Bruce Widener, Chairman and CEO of Beacon Enterprise Solutions said, "Fiscal 2010 was a year of growth and introspection as we implemented changes to our operations. Toward the end of the fiscal year, we made the strategic decision to focus on our four core segments of higher-margin professional services, eliminating our lower-margin, general contracting business. We have also expanded our à la carte services to our existing major national, multi-national and global clients who have not contracted for infrastructure managed services. We have accomplished this by reorganizing our sales and marketing on the sale of individual infrastructure services and the global managed services offering. The reorganization of the professional services team structure also permits Beacon to accommodate branch level services delivery to potential global clients."

Mr. Widener concluded, "As we perform against our Project Backlog, which continues to exceed \$76 million, and seek new, higher-margin business opportunities, we remain confident that 2011 will be an important, breakthrough year for our company. With continued strong business flow from new and existing Fortune 500 clients, supported by our additional credit facility, we expect to transition to profitability in fiscal 2011. We remain confident, that with our new, strategic focus and strengthened management team, that we are on the right track for solid performance in 2011."

Conference Call Today at 10:00 a.m. Eastern Time

Beacon Enterprise solutions will host a conference call today at 10:00 a.m. Eastern Time. Participants on the call will include Bruce Widener, Chairman and Chief Executive Officer; Michael Grendi, Chief Financial Officer; and Jerry Bowman, Chief Operating Officer. The teleconference can be accessed by calling 888-495-3916 and entering conference ID # 29088278. Participants outside of the U.S. and Canada can join by calling 706-634-7530 and entering the same conference ID. Please dial in 15 minutes prior to the beginning of the call. The conference call will be simultaneously webcast and available on the company's website, http://www.askbeacon.com, under the "Investor Relations" tab. A digital recording of the conference call will be available for replay two hours after the end of the call's completion until 11:59 p.m. EST on Sunday, December 19, 2010 by calling 706-645-9291 and entering conference ID # 29088278.

Non-GAAP Financial Measure:

In addition to presenting financial results in accordance with generally accepted accounting principles, or GAAP, this earnings release also presents adjusted earnings before interest, taxes, depreciation and amortization, share based payments, deemed and contractual dividends, and expenses that management believes will not recur in future periods, including certain investor relations, subcontractor, and acquisition-related expenses ("Adjusted EBITDA"). Adjusted EBITDA is calculated by deducting operating and other expenses from operating income and excluding amounts related to interest expense, income tax expense or benefit, depreciation expense, amortization expense, non-cash share-based payments, deemed and contractual dividends, certain investor relations expenses, certain subcontractor expenses, acquisition-related expenses and any gain or loss on disposal of assets. Although we will continue to expend significant resources on investor relations in the future, management believes that certain investor relations expenses incurred in the current fiscal year are unusually high as we build investor awareness, and that a portion of these expenses will not recur in future years. Certain subcontractor expenses are impacting our current fiscal year as we open markets through Beacon certified subcontractors who will be replaced by Beacon personnel over the coming months as Beacon serves markets of sufficient size to support internal operations. In addition, this earnings release also presents Beacon's net loss and net loss per share with adjustments to exclude a one-time, non-cash charge relating to the change in fair value of warrants as described above ("Adjusted Net Loss"). Beacon believes these non-GAAP financial measures provide investors with additional insight into our ongoing operating performance. This non-GAAP financial measure should be considered in conjunction with, but not as a substitute for, the financial information presented in accordance with GAAP.

Aggregate Future Value of Backlog:

Aggregate Future Value of Backlog reflects the projected revenue impact of existing engagements over a one to four year period and is subject to change as work is completed and/or the scope of various engagements changes over time. Backlog includes the projected value of recently announced, multi-year ITS managed services engagements as well as short-term projects for which the Company has been engaged to provide network design, engineering, implementation and/or project management services.

About Beacon Enterprise Solutions Group

Beacon Enterprise Solutions Group is an emerging global leader in the design, implementation and management of high performance Information Technology Systems ("ITS") infrastructure solutions. Beacon offers fully integrated, turnkey IT infrastructure solutions capable of fully servicing the largest companies in the world as they increasingly outsource to reduce costs while optimizing critical IT design and infrastructure management. Through an integrated team approach, Beacon offers a broad range of products and services including IT infrastructure design, implementation and management, application development and voice/data/security system integration, installation and maintenance. Beacon's client roster includes state and local agencies, educational institutions, and over 4,000 companies ranging in size from mid-sized companies to the Fortune 500. Beacon is headquartered in Louisville, Kentucky, with a regional headquarters in Dublin, Ireland, Prague, Czech Republic and personnel located throughout the United States and Europe.

For additional information, please visit Beacon's corporate website: www.askbeacon.com

This press release may contain "forward looking statements." Expressions of future goals and similar expressions reflecting something other than historical fact are intended to identify forward-looking statements, but are not the exclusive means of identifying such statements. These forward-looking statements may include, without limitation, statements about our market opportunity, strategies, competition, expected activities and expenditures as we pursue our business plan. Although we believe that the expectations reflected in any forward looking statements are reasonable, we cannot predict the effect that market conditions, customer acceptance of products, regulatory issues, competitive factors, or other business circumstances and factors described in our filings with the Securities and Exchange Commission may have on our results. The company undertakes no obligation to revise or update any forward-looking statements in order to reflect events or circumstances that may arise after the date of this press release.

Beacon Enterprise Solutions Awarded New Engagements Worth \$2.3 Million in 2011

LOUISVILLE, KY, December 16, 2010 — Beacon Enterprise Solutions Group, Inc. (OTC BB: BEAC) (www.askbeacon.com), an emerging global leader in the design, implementation and management of high performance Information Technology Systems (ITS), today announces two new engagements collectively worth approximately \$2.3M have been awarded with a Global Fortune 100 client (\$2M) and through the Company's Master Marketing Agreement (\$0.3M) with Controlco Sustainable Solutions Group (CSSG), which was announced November 29, 2010.

"We are excited to broaden the project scope with this Global 100 client and to start on-boarding the first joint client in our marketing relationship with Controlco," stated Bruce Widener, COO of Beacon Solutions. "Most importantly, 100% of the \$2.3M in expected revenue is new organic growth that we should realize in the first half of 2011 and is not part of our previously announced Project Backlog. Our sales teams are utilizing our channel strategy to bring on new clients as well as to increase business with existing clients."

Under the Global Fortune 100 engagement, Beacon will utilize two of its four ITS disciplines, Service Delivery Management (SDM) and ITS Engineering (IE) for the purpose of completing ITS infrastructure assessments in 28 client sites initially and 210 other locations throughout the project. The client sites are in locations through-out the world, including North America, Europe, Asia Pacific, South America and Mexico.

The second engagement was solidified through the Company's Master Marketing Agreement with Controlco to pursue joint ITS infrastructure clients. The scope of work for the first joint project will be performed by Beacon's ITS Construction Management (ICM) technical business unit and focuses on providing energy management data to the client through the installation of electrical power metering and supporting network infrastructure for a number of United States based retail shopping centers.

"This first project consummates our commercial relationship with Controlco and is evidence of the demand for services within the Smart Enterprise vertical market, launched at the beginning of this fiscal year," stated Jerry Bowman, COO of Beacon. "Our US-based teams have been training and doing site assessments for several weeks in preparation for the launch of this project prior to year's end. We look forward to working with Controlco on this project and other marquee client initiatives as our relationship continues to evolve. This project holds promise to be the start of many projects with CCSG in what we consider to be a strong growth-vertical for Beacon."

Aggregate Future Value of Project Backlog

Aggregate Future Value of Project Backlog reflects the projected revenue impact of existing engagements over a one to four year period and is subject to change as work is completed and/or the scope of various engagements changes over time. This number includes the projected value of previously announced, multi-year ITS managed services engagements as well as short-term projects for which the Company has been engaged to provide ITS Engineering (IE), Service Delivery Management (SDM), ITS Contract Services (ICS) and/or ITS Construction Management (ICM).

About Beacon Enterprise Solutions Group, Inc.

Beacon Enterprise Solutions Group is an emerging global leader in the design, implementation and management of high performance Information Technology Systems ("ITS") infrastructure solutions. Beacon offers fully integrated, turnkey IT infrastructure solutions capable of fully servicing the largest companies in the world as they increasingly outsource to reduce costs while optimizing critical IT design and infrastructure management. Beacon is headquartered in Louisville, Kentucky, with a regional headquarters in Dublin, Ireland, Prague, Czech Republic and personnel located throughout the United States and Europe.
