Notes to the Financial Statements
March 31, 2007

GENERAL

Suncrest Global Energy Corp. (the Company) has elected to omit substantially all footnotes to the financial statements for the nine months ended March 31, 2007 since there have been no material changes (other than indicated in other footnotes) to the information previously reported by the Company in their Annual Report filed on the Form 10-KSB for the twelve months ended June 30, 2006

UNAUDITED INFORMATION

The information furnished herein was taken from the books and records of the Company without audit. However, such information reflects all adjustments which are, in the opinion of management, necessary to properly reflect the results of the interim period presented. The information presented is not necessarily indicative of the results from operations expected for the full fiscal year.

COMMON STOCK

On October 23, 2006 the Board of Directors approved a 13:1 reverse split of the Company's common shares which was effective December 27, 2006. These financial statements have been retroactively restated to reflect the reverse split.

In this quarterly report references to "Suncrest Global," "we," "us," and "our" refer to Suncrest Global Energy Corp.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The Securities and Exchange Commission ("SEC") encourages companies to disclose forward-looking information so that investors can better understand future prospects and make informed investment decisions. This report contains these types of statements. Words such as "may," "will," "expect," "believe," "anticipate," "estimate," "project," or "continue" or comparable terminology used in connection with any discussion of future operating results or financial performance identify forward-looking statements. You are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date of this report. All forward-looking statements reflect our present expectation of future events and are subject to a number of important factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

We are a development stage company, have not recorded revenues in the past two fiscal years, and have suffered losses since our inception. At March 31, 2007, we had cash of \$2,164 and total liabilities of \$100. Our auditors have expressed doubt that we can continue as a going concern if we do not obtain financing. In August 2006 our wholly owned subsidiary, Coyote Oil Company, Inc., sold its mini oil refinery prototype, land and assets related to that property. We used the majority of the approximately \$465,000 proceeds to pay off debt and we will need to raise additional funds during the next twelve months to satisfy our cash requirements.

During the next twelve months our management intends to actively seek an operating company to acquire or with which to merge. Based on current economic and regulatory conditions, management believes that it is possible, if not probable, for a company like ours, without many assets or liabilities, to negotiate a merger or acquisition with a viable private company. The opportunity arises principally because of the high legal and accounting fees and the length of time associated with the process of "going public." However, should a merger or acquisition prove unsuccessful, it is possible that we may decide not to pursue further acquisition activities and management may abandon its activities and our shares would become worthless. As of the date of this filing, we have not identified any assets or business opportunities for acquisition.

Potential investors must recognize that because we have limited capital available for investigation of business opportunities and management has limited experience in business analysis, we may not discover or adequately evaluate adverse facts about any business opportunity to be acquired. All risks inherent in new and inexperienced enterprises are inherent in our plan.

It is emphasized that our management may effect transactions having a potentially adverse impact upon our shareholders pursuant to the authority and discretion of our board of directors to complete acquisitions without submitting any proposal to the stockholders for their consideration.

ITEM 3. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings under the Exchange Act is recorded, processed, summarized and reported within the periods specified in the rules and forms of the SEC. This information is accumulated and communicated to our executive officers to allow timely decisions regarding required disclosure. Our President, who acts in the capacity of principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, he concluded that our disclosure controls and procedures were effective.

Our President also determined that there were no changes made in our internal controls over financial reporting during the third quarter of our 2007 fiscal year that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.
