Notes to the Financial Statements  
September 30, 2007

GENERAL

Suncrest Global Energy Corp. (the Company) has elected to omit substantially all footnotes to the financial statements for the three months ended September 30, 2007 since there have been no material changes (other than indicated in other footnotes) to the information previously reported by the Company in their Annual Report filed on the Form 10-KSB for the twelve months ended June 30, 2007

UNAUDITED INFORMATION

The information furnished herein was taken from the books and records of the Company without audit. However, such information reflects all adjustments which are, in the opinion of management, necessary to properly reflect the results of the interim period presented. The information presented is not necessarily indicative of the results from operations expected for the full fiscal year.

## SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The Securities and Exchange Commission ("SEC") encourages companies to disclose forward-looking information so that investors can better understand future prospects and make informed investment decisions. This report contains these types of statements.

Words such as "may," "will," "expect," "believe," "anticipate," "estimate," "project," or "continue" or comparable terminology used in connection with any discussion of future operating results or financial performance identify forward-looking statements. You are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date of this report. All forward-looking statements reflect our present expectation of future events and are subject to a number of important factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

We are a development stage company and we have not recorded revenues in the past two fiscal years. At September 30, 2007, we had cash of \$6,459 and total liabilities of \$12,900. Our auditors have expressed doubt that we can continue as a going concern if we do not obtain financing. Management anticipates during the next twelve months that we will use our cash to pay for our minimal operations and legal, accounting and professional services required to prepare and file our reports with the SEC. However, we will need to raise additional funds during the next twelve months to satisfy our cash requirements.

Any additional funding will likely come from loans or equity financing. If we sell our common stock to raise additional capital, then we expect to issue such stock pursuant to exemptions provided by federal and state securities laws. The purchasers and manner of issuance will be determined according to our financial needs and the available exemptions. We do not currently intend to make a public offering of our stock. We also note that if we issue more shares of our common stock, then our shareholders may experience dilution in the value per share of their common stock.

Management has actively sought an operating company to acquire or with which to merge and we have identified a business opportunity that we plan to pursue. However, as of the date of this report, we are in preliminary negotiations and have not entered into a definitive agreement concerning an acquisition or merger, and management can not assure you that any transaction will be finalized. Based on current economic and regulatory conditions, management believes that it is possible, if not probable, for a company like ours, without many assets or liabilities, to negotiate a merger or acquisition with a viable private company. The opportunity arises principally because of the high legal and accounting fees and the length of time associated with the process of "going public".

Potential investors must recognize that because we have limited capital available for investigation of business opportunities and management has limited experience in business analysis, we may not discover or adequately evaluate adverse facts about any business opportunity to be acquired. If we are unable to finalize a merger or acquisition, it is possible that management may decide not to pursue further acquisition activities and management may abandon its activities and our shares would become worthless.

It is emphasized that our management may effect transactions having a potentially adverse impact upon our shareholders pursuant to the authority and discretion of our board of directors to complete acquisitions without submitting any proposal to the stockholders for their consideration.

During the past fiscal year we have not recorded research and development expense and do not anticipate those type of expenses in the short term. We do not anticipate hiring employees in the short term, but this action will be based upon our success in finding a business opportunity.

### ITEM 3. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings under the Exchange Act is recorded, processed, summarized and reported within the periods specified in the rules and forms of the SEC. This information is accumulated and communicated to our executive officers to allow timely decisions regarding required disclosure. Our President, who acts in the capacity of principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, he concluded that our disclosure controls and procedures were effective.

Our President also determined that there were no changes made in our internal controls over financial reporting during the first quarter of our 2008 fiscal year that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

### PART II: OTHER INFORMATION

#### ITEM 5. OTHER INFORMATION

In August 2006 our wholly-owned subsidiary, Coyote Oil Company, Inc. ("Coyote Oil"), sold its mini oil refinery prototype, land and assets related to that property and after that transaction Coyote Oil did not have any assets or have a plan of operation. On September 28, 2007, Coyote Oil's board of directors and shareholder approved the dissolution of that corporation and caused a Certificate of Dissolution to be filed with the Nevada Secretary of State, which became effective October 30, 2007.
